initiatives, we are committed to nurturing well-rounded individuals poised for success in both their personal and professional endeavors.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

In our college, students are offered the flexibility to choose their medium of study, allowing them to opt for either Gujarati or English as their preferred language of instruction. This approach acknowledges and respects the diverse linguistic preferences and backgrounds of our student body, ensuring that all students can engage effectively with the academic curriculum in a language that they are most comfortable with.

By providing students with the option to study in either Gujarati or English medium, we promote inclusivity and accessibility, enabling every student to pursue their education in a manner that best suits their learning needs and preferences. Through events, competitions, and cultural activities, the Bhasha Mahotsav program encourages students to appreciate and embrace the richness of language and culture, thereby promoting unity and mutual respect within our college community.

19. Focus on Outcome based education (OBE): Focus on Outcome based education (OBE):

Gujarat University has deployed Course Outcomes (COs) and Program Outcomes (POs) serve as benchmarks to evaluate student learning and program effectiveness. COs delineate specific knowledge, skills, and competencies students are expected to attain within individual courses, while POs define broader educational objectives for entire programs.

The college assesses student performance in examinations to measure

Page 6/123 27-03-2024 11:57:05

their achievement of COs and POs. Examinations serve as one of the primary assessment methods to evaluate students' understanding of course material, application of concepts, and attainment of learning outcomes. The examination process should be aligned with the predetermined COs and POs, ensuring that assessment tasks adequately measure the desired learning outcomes.

Assessment of COs and POs through examinations should be rigorous, fair, and comprehensive. Examination questions should be designed to assess various cognitive levels, including knowledge recall, comprehension, application, analysis, synthesis, and evaluation, in alignment with the intended learning outcomes. Additionally, examination formats may include multiple-choice questions, short-answer questions, essays, case studies, and practical demonstrations, depending on the nature of the course and the targeted learning outcomes.

Moreover, it's essential for the college to provide students with clear guidelines and assessment criteria regarding how their performance in examinations will be evaluated against the COs and POs. Transparent communication of expectations helps students understand the relevance of course content and motivates them to engage actively in their learning process.

Overall, the examination process serves as a critical mechanism for assessing student attainment of COs and POs, providing valuable feedback for program improvement and ensuring the quality and integrity of the educational experience.

20.Distance education/online education:

In response to the pandemic lockdown and to accommodate student convenience, faculty members have adopted various technological tools for blended learning. Further, this helps to teachers for discussion on common mistakes of students in the class. Re-test examinations are conducted for absent students with genuine reasons or unforeseen events.

The Internal exam has weight of 30% Marks which includes their attendance, Assignments, Unit Tests and MCQ tests. The Marks of students at the end of the semester are collected by the Examination committee. The examination committee display the marks for the students. Examination committee gives them some time to see and if

Page 20/123 27-03-2024 11:57:06

there are any discrepancies they can get it resolved by consulting the concerned teacher. After that the marks of the students are uploaded in the university's portal which finally reflects in the mark sheets.

The students who failed in internal exams get another chance for remedial exams so that they can perform and pass the examination.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

At college level:

College follows continuous internal evaluation where all departments conduct continuous unit tests, give assignments etc. After all tests teachers show the marks to the students and after completion of the semester all marks are combined and the weight is of 30%. All teachers submit the marks to the examination department of the college. The examination department displays the marks on notice board for the student's references. If students are not satisfied with their internal marks, they submit their grievances to respective subject teachers/examination committee for grievances settlement. Examination committee forwarded such applications to respective departments for rechecking/ reassessment of such students and resolves their grievances within stipulated time period. In case of need, students are given opportunity for extra classes, followed by re-test/ remedial internal examinations for absent/slow/weak learners. The respective department re- evaluates/re-assess such students answer sheets/test papers/assignments and re-submit results to examination committee for rectifying marks, if any.

Finally, marks list with all corrections (including all remedial internal examination results) is ensured by examination committee in final mark sheet which is to be submitted to examination portal on university website.

At university level:

In case of dissatisfaction with their final internal marks displayed by university, students submit their request application to college, and the same is forwarded to university for correction for necessary action. The university provides students to revaluate the answer sheet after paying requisite fee.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

The college, affiliated with Gujarat University, strictly adheres to the university-designed syllabi for its courses. The Board of Study at Gujarat University formulates the syllabus for each subject, making the latest approved syllabi available on the university website for student access.

At the beginning of each academic year, the college establishes a timetable committee. This committee collaborates with the Professor-in-charge of each subject in every faculty to gather insights regarding class schedules. They distribute subjects among teachers according to the University's prescribed teaching scheme, encompassing lecture classes, practical sessions, and tutorials. The primary focus remains on achieving the set objectives, which include Program Outcomes (POs), Program-Specific Outcomes (PSOs), and Course Outcomes (COs).

To ensure students are well-informed, faculty members share these POs, PSOs, and COs with their students regularly. These objectives are prominently displayed within departmental walls and at the college entrance for widespread visibility. Teachers craft their courses with these objectives in mind, aligning their teaching strategies to meet these defined goals. This practice aims to keep students updated and committed to their studies by understanding the specific objectives associated with their courses.
